### **Revised statement developments Middle East**

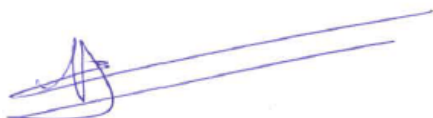

Recent geopolitical developments have resulted in structural disruptions in the energy markets. International tensions and conflicts continue to create uncertainty regarding the supply and pricing of energy and fuels. Over the past several weeks, Sonneveld has fully absorbed the significantly increased diesel costs, despite the ongoing pressure on fuel prices. We have done so deliberately to limit the impact on you as our customer as much as possible.

In this context, we must conclude that the current diesel cost levels are not temporary but are expected to persist for at least the coming months. To maintain the level of service you are accustomed to, we regrettably have no alternative but to pass on this fuel surcharge with immediate effect, in accordance with our general terms and conditions. The surcharge will be shown as a separate line item on your invoice.

We emphasize that this decision has been taken carefully and thoughtfully. We will continue to closely monitor market developments and will review the surcharge as soon as circumstances allow.

We thank you for your understanding and for the trust you place in Sonneveld. Should you have any questions or require further clarification, please do not hesitate to contact your account manager.

Best regards,  
**SONNEVELD GROUP B.V.**
